I think people have a very good understanding of a) what data would be useful for them, b) what's missing, c) what they can contribute. We could have skipped all of the presentations today and gone straight to that and gotten this whole thing done in one day!

Thanks for asking our participation!

Absent, came late from another meeting. Left prior to end of meeting.

I need more time to study the the notebook information.

Disclaimers - I am representing <another person> today. I am not familiar with all tobacco-related responsibilities for our organization, nor many of the tobacco organizations represented here, so I "listened" a lot.

3 What part(s) of today's meeting did you find most valuable? Why?

Logic models provided a visual and step by step process.
Well layed out evaluation program with resources on tobacco evaluation. Can be used by other programs as a guide.
I think the meeting was well organized, and I am not sure that there was one most and least valuable part of the day.
Interaction with others. Good overview at first.
Each of equal value.
Being able to connect with other groups/work areas.
Comprehensive review of tobacco prevention and cessation; clarity of issues; group disucssion; rich exchange of ideas.

4 What part(s) of today's meeting did you find to be the least valuable? Why?

Slides although necessary become deadening afer a while.
None.
Time was short for good discussion.
Could have shortened 1st half from my perspective, but maybe others did not have same level of knowledge regarding outcomes/logic models,etc. Very bright, knowledgeable and diverse group of people.
All valuable (equally).
Overviews, notebook information.
Workgroup Discussion.

5 What recommendations do you have as we finalize Meeting 2 plans?

More time is needed.
Examples of successful programs.
Have room arranged in a way to facilitate conversations better.
Much to digest in short time period. Not enough time for questions after each presentation.
Longer meetings and more meetings. Need more time on each topic.
Make certain before split up groups that they understand what is expected of them.
Inadequate time for group discussion feedback.

6 *Are there any other comments or suggestions you would like to share?*

Long term continuations of workgroups.

One row of tables unusable because of AV cart.

Perhaps 3 meetings is not enough. Perhaps a whole day instead of 4 hours.

Great group of folks. Very promising project.
